

Electric appliances: how much do they consume per year?

Calculated on the basis of an average tariff of €0,35/kWh

1. TRACK ELECTRIC HEATING

- Electric boiler and space heater.

Champion Boiler!

2. ELIMINATE STANDBY CONSUMPTION

- Set-top box, TV, PC.

Smart power strips = instant savings.

3. CHOOSE THE ENERGY LABEL

- Aim for Class A (new A-G labels) for fridges, dryers.
